

RETHINK ECO TRIP!

Dear parents/carers,

On **Monday, 25th March** we have an exciting opportunity to take the children to visit the North Hykeham Recycling Centre in Lincoln. During the day of our visit the children will take a tour around the facility to witness first – hand where their non-recyclable waste goes and how it is used to generate electricity. They will also take part in activities devised by the centre’s Waste Recovery Officers to discover more about packaging production and design and the global impact these have on the amount of waste that is generated.

As part of the day’s activity the children need to bring their packed lunch in **reusable containers** with minimal packaging. Any waste left over at the end of lunch, will then be sorted and weighed and entered into the Waste Free Lunch Challenge this is to promote the reduction of waste.

The children will be required to be in school uniform, to bring a packed lunch and drink and be ready to leave school at **9.00am** straight after registration. They will return to school for the end of the day (traffic permitting!).

There is **no cost** to you as a parent.

Prior to this visit, on **Thursday 14th March** the children of Year 4 will be having a visit from the **Boston Barrier Community Hub** representative Georgia Thompson. During the visit the children will be given an insight into the flood prevention from the barrier construction, the reasons behind the Boston floods of 2013 and the dangers posed by flooding.

If you have any questions about this exciting opportunity, please contact Miss Simpson.

Yours sincerely,

Miss Simpson
