

8th March 2019

Dear Parent/ Carer,

We would like to invite you to join us with the children to celebrate the fantastic Science learning that has been going on in Foundation Stage at Boston West.

We have continued an exciting project started last year that makes Science explicit within the Foundation Stage, using the terminology of Science, with the children being 'scientists'. The aim of this is to not only increase children's engagement with the subject and promote an enthusiasm for it, but will be the tool to impact on Communication and Language too. The project was selected as a finalist in the Rolls Royce Science awards 2017-18 and it is great to see the impact it is still having on your children!

Children have been taking part in investigations using 'everyday' resources, and encouraged to use their own ideas to develop their investigation further. We would like to invite you in for a **'Super Science' afternoon** where you will be able to participate in some investigations together with your child. You will also be given a pack of resources to take home which will include some key questions and ideas for practical activities at home to explore further.

We hope you can join us for our **Foundation Stage 'Super Science' event on Tuesday 26th March at 2:00;** entrance will be through the side gate near the hall. Please speak to your child's class teacher or myself if you have any questions, or would like to know more about it. We look forward to seeing you there!

Yours Sincerely,

Mrs Pickwell

Mrs Amanda Pickwell
Assistant Head teacher

Please return to your child's class teacher by Friday 15th March
